My Nightlight Book

This adorable storybook tackles the common issue of a child's nighttime fears. It features Caillou as he quietly listens to the various noises of the house around him. The book incorporates a soft-glowing nightlight into the die-cut board book pages, so children can read while pressing a soft plastic, light-emitting moon. Each illumination lasts a few minutes, then gently dims away. Parents and children alike will appreciate this reassuring and innovative approach to the bedtime story.

My Body

Like all children his age, Caillou is very active, discovering life through his daily experiences and becoming more aware of his body. When he runs, he can feel his heart beat faster. When he eats and drinks, he has to go to bathroom. After a busy day, he takes a bath and goes to sleep, only to repeat the whole thing again the following day. The simple and easy-to-understand explanations of the human body are written from Caillou's point of view. Perfect for children his age who want to know how their body functions and how to take care of it.

Introducing children to the human body and some of its major systems, this unique Caillou-shaped book explores the cardiovascular system, the digestive system, the skin, cleanliness, and visible anatomy.
